**Sociology 205: Introduction to Social Research I**

2 Louise Pound Hall  
Tuesday and Thursday 11am to 12:15pm  
Spring 2022

**Professor:** Dr. Christina Falci  
*Office Location:* 714 Oldfather Hall, *Sociology Office Phone:* (402) 472-3631  
*Student Office Hours:* Tuesday from 1:30pm to 2:30pm & Thursday from 12:30pm to 1:30pm or by appointment which should be set up via email to determine time and mode (in-person or Zoom)  
*Email:* cfalci2@unl.edu

**Teaching Assistant:** Memory Manda  
*Office Location:* 741 Oldfather Hall  
*Student Office Hours:* Monday from 11am to 12pm and Wednesday 12:30pm to 1:30pm or by appointment which should be set up via email to determine time and mode (in-person or Zoom)  
*Email:* mmanda2@huskers.unl.edu

**Advising and Career Office,** UNL College of Arts and Sciences: [https://cas.unl.edu/major-advisors](https://cas.unl.edu/major-advisors)  
**Sociology Academic Advisor:** Sarah Feit, email: sfeit2@unl.edu

**Course Prerequisites:** sociology minor/major or sophomore/junior/senior standing

**Course Description:** The sociology major requires a series of research-oriented courses including SOCI 205 (research methods), SOCI 206 (social statistics), and SOCI 489 (senior capstone). In SOCI 205 students learn the social research process from formulating a research question and developing theoretical hypotheses to designing a research study to answer those question. It provides a general overview of the ways sociologists collect data about the social world to answer research questions. Special emphasis is placed on the method of survey research, which is the dominant method of collecting data among sociologists. In SOCI 206, students will learn how to statistically analyze quantitative data collected from surveys. In SOCI 489, students will apply their knowledge from both SOCI 205 and SOCI 206 to write a complete original research paper.

In SOCI 205, the focus will be on developing research questions, reviewing the peer-reviewed research literature, and learning numerous data collection methods. The course is split into two main sections. The first section of the semester focuses on the basic elements of research design that apply to all methods of data collection including conceptualization, operationalization, sampling, and causation. In the second half of the semester, students will apply research design elements to research methods utilized by sociologists including surveys, experiments, in-depth interviews, and participant observations. For each research method, students will learn the best practices for collecting the type of data gathered by the method. Also, students will read an exemplar journal article that will provide an illustrative example of the method within the academic research literature. This class will also address the ethical considerations of social science research in general and within each data collection method. Throughout the entire course students will be working on final literature review paper completed across three written assignments over the course. For this project, students will formulate a research question, develop hypotheses to answer the question, find the empirical peer-reviewed literature on the topic, and write an integrated review about the current social science understanding of their chosen topic.
Course Goals:

- learn to formulate sociological research questions and to develop theoretical hypotheses to provide tentative answers to a research question
- learn to find, read and synthesize peer-reviewed journal articles to assess the current state of social scientific knowledge on a particular research question
- learn the elements of research design: conceptualization, measurement, sampling, and causation
  - practice critical thinking skills via the evaluation of the quality of social scientific research based on research design elements
- learn the core components of a variety of quantitative and qualitative methods for collecting the data necessary to empirically test theoretical hypotheses
  - appreciate the strengths, limitations, and ethical concerns of each method of data collection

Course Format: This class is set up for in person instruction. In other words, all lectures and group exercise work will happen on campus at the scheduled class time and location. If in-person classes are canceled, you will be notified of the instructional continuity plan for this class via Canvas.

- Lecture classes will review some of the key points from the assigned readings - in addition to incorporating material not included in the assigned readings. I welcome questions and comments at any point during class. Your questions give me the opportunity to clarify ambiguities and help everyone deepen their understanding of the course material. Frequently, I will ask questions to the class about the course material. These questions help me assess students’ understanding and encourage students to think further about the topic being covered.
- On groupwork days students will work in impromptu groups of 3 to 4 students completing a methods exercise. The instructor and TA will be available to answer any questions that arise as each group works through the exercise. Often groups will be able to complete the exercise in class, but if not, then students will need to finish what is left of the exercise outside of class.
  - If you miss class on groupwork methods exercise day, then the student must complete the exercise on their own. It will be important to have notes from the classes before attempting the methods exercise, so students will have the knowledge needed to complete the exercise. If a student is having a hard time completing an exercise on their own, then it is the student’s responsibility to reach out to the instructor or TA for help.

Required Readings: The textbook can be purchased at the University Bookstore and the journal articles are available on Canvas.

Textbook

Peer-Reviewed Journal Articles

Media Reading

Course Requirements: I expect students to keep up with assigned readings, to show up for class on time, take good notes, and participate fully in method exercises.

1) Methods Exercises (25%) – over the course of the semester students will complete research methods exercises (each worth 10 points). While students are set up to work in groups of 4-5 students when completing the exercise, each student is required to write-up and turn-in their own exercise. The due dates for each exercise are posted on Canvas. Generally, methods exercises are due one week from the class it began. I expect every student to participate in the groupwork and follow the groupwork guidelines set up for this activity – see groupwork guidelines below.

2) Literature Review Final Paper (35%) – this is a progressive 3-paper assignment (i.e., each paper assignment builds from the previous one). As such, students are required to use feedback from previous paper assignments to revise the relevant parts of subsequent paper assignments. The due dates for each paper assignment and complete assignment details are posted on Canvas. The first Topic Statement paper provides an overview of the topic of your paper by identifying the research question, concepts and hypotheses. The second Annotated Bibliography paper redrafts the overview based on feedback and contains summaries of each peer-reviewed article that answers your proposed research question. Students will get feedback on the quality and relevance of the peer-reviewed articles. The final Literature Review paper will include an introduction to the research question followed by an integrated literature review section. The literature review section with integrate concept definitions and hypothesis statements with a narrative, which cites past research appropriately, about the current social science evidence pertaining to your overall research question and the specific hypotheses you propose.

- Topic Statement ................................................................. 50 points
- Annotated Bibliography ................................................... 100 points
- Literature Review ............................................................ 125 points

3) Exams (40%) – all exams will consist of multiple choice, matching, and true/false questions. The exams will cover all aspects of the class, including readings, lectures, in-class discussions, and methods exercises. The final exam will be cumulative. Students will have 60 minutes to complete exams 1 & 2, and 90 minutes to complete the final exam. All exams will be taken online via Canvas. Study guides for the exam are posted on Canvas along with timeframes for when students may complete the exam.
Grade Basis: based on your final grade percentage.

- A + 97 - 100
- A 93 – 96.9
- A - 90 – 92.9
- B + 87 – 89.9
- B 83 – 86.9
- B - 80 – 82.9
- C + 77 – 79.9
- C 73 – 76.9
- C - 70 – 72.9
- D + 65 – 69.9
- D 60 – 64.9
- F below

Course Policies: All UNL students should be aware of the following university-wide course policies and resources describe here: [https://executivevc.unl.edu/academic-excellence/teaching-resources/course-policies](https://executivevc.unl.edu/academic-excellence/teaching-resources/course-policies). Additional class specific information is below.

Attendance and Engagement: Your attendance is expected by university policy (see Faculty Senate Class Attendance Policy) and by me. I take attendance at every class, but I do not give a grade for attendance. If students are going to miss more than a single class due to illness or emergency, then get in touch with the instructor as soon as possible. Engagement in class is the best way to get the information you need to perform well in the class. Each student is responsible for any material missed from an absence.

Tardiness: While I expect students to show up for class on time, in my view, it is better to show up to class late than not to come to class at all. If you show up late on the day we have already started a methods exercise, then you will likely need to complete that exercise on your own. If for any reason you anticipate being late on a regular basis to class, then you need to inform the instructor to explain the situation.

Participation: Participation during class discussions and exercises requires being prepared to contribute relevant ideas, reactions, or questions. Completing the methods exercises will sometimes require having read a specified assigned reading before coming to class.

Diversity and Inclusion: An inclusive learning environment is where diverse perspectives are recognized and respected. Conversations in this course must be respectful and civil. According to our Student Code of Conduct, speech that is abusive, harassing, intimidating, or coercive is prohibited. Students who engage in such speech will be asked to leave the classroom and further disciplinary actions may be taken.

Late Work and Make-Ups: Assignments turned in late will lose points (half a letter grade for every weekday it is late) unless there is documentation of illness/emergency or other extenuating circumstances. Missed exams may only be made-up with documented evidence of illness or emergency.

COVID Consideration: The global pandemic has altered many aspects of our personal lives and education. We all know that situations can change rapidly and that we may find ourselves needing to adjust/adapt to those changes. Please feel free to reach out to the instructor at any time if you have concerns, questions, situations that are affecting your ability to engage in the class, or if you just want to check-in. In times like this, it becomes even more important for students to reach out to the instructor or TA when they need help with anything, especially extensions on deadlines. At the beginning of the semester official policy is to require all persons on campus to wear a face covering. Failure to comply with this policy will lead to disciplinary charges for violating the student code of conduct. If this policy
should change at any time this semester, then I respectfully request that you still join me in wearing a face covering during our classes.

**Taking the Class Pass/Fail:** Students may take this class pass/fail, but students must complete all course requirements in order to receive a passing grade. Furthermore, those taking the course Pass-No Pass will need a C or better to obtain a Pass (a C minus is a “No Pass”).

**Academic Honesty:** Academic honesty is essential to the existence and integrity of an academic institution. The responsibility for maintaining that integrity is shared by all members of the academic community. The University's Student Code of Conduct addresses academic dishonesty - [https://studentconduct.unl.edu/academic-integrity](https://studentconduct.unl.edu/academic-integrity). Students who commit acts of academic dishonesty are subject to disciplinary action and are granted due process and the right to appeal any decision. I will take all necessary steps to enforce the Honor System for the sake of fairness to all students. Importantly, all paper assignments will be checked for plagiarism using the “Turnitin” feature in Canvas. Plagiarism is taking someone else’s ideas/work/words and using them as your own. To better understand how to avoid plagiarism by paraphrasing and using proper citation please take advantage of this UNL resource: [https://www.unl.edu/gradstudies/current/integrity#plagiarism](https://www.unl.edu/gradstudies/current/integrity#plagiarism).

**Accommodation:** The University strives to make all learning experiences as accessible as possible. If you anticipate or experience barriers based on your disability (including mental health, chronic or temporary medical conditions), please let me know immediately so that we can discuss options privately. To establish reasonable accommodations, I may request that you register with Services for Students with Disabilities (SSD). If you are eligible for services and register with their office, make arrangements with me as soon as possible to discuss your accommodations so they can be implemented in a timely manner. SSD contact information: 232 Canfield Admin. Bldg.; 402-472-3787.

**Classroom Visitors and Recordings:** According to the University’s Trespass Policy (Regents’ Policy 6.4.7) only the instructor and the students registered for the course are “authorized” to be in the classroom during the scheduled class period. Only the instructor has the discretion to allow visitors into the classroom. I invite all of you to join me in actively creating and contributing to a positive, productive, and respectful classroom culture. Each student contributes to an environment that shapes the learning process. Any work and/or communication that you are privy to as a member of this course should be treated as the intellectual property of the speaker/creator and is not to be shared outside the context of this course.

Students may not make or distribute screen captures, audio/video recordings of, or livestream, any class-related activity, including lectures and presentations, without express prior written consent from me or an approved accommodation from Services for Students with Disabilities. If you have (or think you may have) a disability such that you need to record or tape class-related activities, you should contact Services for Students with Disabilities. If you have an accommodation to record class-related activities, those recordings may not be shared with any other student, whether in this course or not, or with any other person or on any other platform. Failure to follow this policy on recording or distributing class-related activities may subject you to discipline under the Student Code of Conduct.

**Student Wellness Resources:** UNL offers a variety of options to students to aid them in dealing with stress and adversity. *Counseling and Psychological & Services* (CAPS) is a multidisciplinary team of psychologists and counselors that works collaboratively with Nebraska students to help them explore their feelings and thoughts and learn helpful ways to improve their mental, psychological and emotional well-being when issues arise. CAPS can be reached 24/7 by calling 402-472-7450. *Big Red Resilience & Well-Being* (BRRWB) provides one-on-one well-being coaching to any student who wants to enhance their well-being. Trained well-being coaches help students create and be grateful for positive
experiences, practice resilience and self-compassion, and find support as they need it. BRRWB can be reached by calling 402-472-8770. The Center for Advocacy, Response & Education (CARE) provides support for individuals who have experienced relationship violence or sexual assault. CARE Advocates are a confidential resource who can provide information about services and support decision-making. CARE can be reached by calling 402-472-3553. For after hours and weekend support, you can call Voices of Hope at 402-437-9302.

**Group Work Guidelines**

**Basic Principles**

A) Courtesy: engage in common courtesy.
   i. Listen. Even if you think what they’re saying is wrong or off topic. Cutting someone off is rude, and not worth whatever small time gain you might make. Don’t finish someone’s sentences for him or her; they can do it for themselves. And remember: talking louder or faster doesn’t make your idea any better.
   ii. Phrase alternative ideas as questions. If someone expresses what you feel is a "bad" opinion, try to criticize it constructively rather than putting down the person. Instead of "I think we should do A, not B," try "What if we did A, instead of B?" That allows people to offer comments, rather than defend one choice.
   iii. Praise each other. Find something nice to say, even if it’s a stretch. Even the worst of ideas has a silver lining inside it, if you just look hard enough. Focus on the good, praise it, and then raise any objections or concerns you have about the rest of it.
   iv. Help team members who are struggling - everyone needs to understand the problem

B) Cooperation: is also a key factor in teamwork
   i. There is no “I” in group work. Don't let one group member have too much responsibility. Conversely, do not let any group member get out of doing their fair share of the work. Each group member needs to take initiative to participate in and complete the task.
   ii. Inclusion. All members should have a chance to express themselves and to influence the group's decisions. Go around the group and hear everyone's ideas (before discussing them) or encourage divergent thinking by brainstorming. All contributions are listened to carefully, and strong points acknowledged. Be sure to include everyone when considering ideas about how to proceed as a group.
   iii. Conflict. If you notice a problem in your group, discuss it right away. Don't let the problem escalate. Apologize for upsetting your peers, even if you think someone else was primarily at fault; the goal is to work together, not start a legal battle over whose transgressions were worse.

**Group Member Roles:** As a Participant, all students are required to provide input, ideas, or suggestions into the task at hand. To facilitate student engagement, students should occupy these kinds of member roles as necessary:
   o **Moderator** – solicit ideas from or ask questions of another group member
   o **Presenter** – summarize the group’s thoughts about how to tackle a specific task or summarize the group’s answer/response to the task
